# Contents

## VOLUME 11, NUMBER 1, MARCH 1986

C. H. BELL and P. R. KERSLAKE: A circadian rhythm influencing foraging behaviour in the saw-toothed grain beetle *Oryzaephilus surinamensis* 1–6
S. M. DE BRUIJN, A. B. KOOPMANSCHAP and C. A. D. DE KORT: High-molecular-weight serum proteins from *Locusta migratoria*: identification of a protein specifically binding juvenile hormone III 7–16
T. HOFMANN and U. BÄSSLER: Response characteristics of single trochanteral campaniform sensilla in the stick insect, *Cuniculina impigra* 17–21
UTE KINDERMANN and HORST HERTEL: The time course of dark adaptation in the bee: a phototactic and electrophysiological investigation 23–28
J. M. PASTEELS, D. DALOZE and M. ROWELL-RAHIER: Chemical defence in chrysomelid eggs and neonate larvae 29–37
S. E. REYNOLDS, M. R. YEOMANS and W. A. TIMMINS: The feeding behaviour of caterpillars (*Manduca sexta*) on tobacco and on artificial diet 39–51
D. S. RICHARD, D. S. SAUNDERS, V. M. EGAN and R. C. K. THOMSON: The timing of larval wandering and puparium formation in the flesh-fly *Sarcophaga argyrostoma* 53–60
KLAUS RIEDE: Modification of the courtship song by visual stimuli in the grasshopper *Gomphocerus rufus* (Acrididae) 61–74
COBY SCHAL and RING T. CARDÉ: Effects of temperature and light on calling in the tiger moth *Holomelina lamae* (Freeman) (Lepidoptera: Arctiidae) 75–87
J. P. WOODRING and CRAIG W. CLIFFORD: Development and relationships of locomotor, feeding, and oxygen consumption rhythms in house crickets 89–96
KOICHIRO J. YAGI and W. LOHER: Circadian locomotory rhythm and the influence of moulting in Australian field cricket nymphs 97–105
JAN ŽĎÁREK, SILVIA REID and GOTTFRIED FRAENKEL: How does an eclosing fly deal with obstacles? 107–114
BOOK REVIEW; CORRIGENDUM 115

## VOLUME 11, NUMBER 2, JUNE 1986

A. J. ADAMS: The control of ovarian development during adult diapause in the cabbage whitefly, *Aleyrodes proletella* 117–124
A. B. ATTYGALLE, M.-C. CAMMAERTS, R. CAMMAERTS, E. D. MORGAN and D. G. OLLETT: Chemical and ethological studies of the trail pheromone of the ant *Manica rubida* (Hymenoptera: Formicidae) 125–132
GARY P. FITT: The influence of a shortage of hosts on the specificity of oviposition behaviour in species of *Dacus* (Diptera, Tephritidae) 133–143
GERD GÄDE and MARIANNE SCHEID: A comparative study on the isolation of adipokinetic and hypertrehalosaemic factors from insect corpora cardiaca 145–157
ANS HENDRIKSE: Intra- and interspecific sex-pheromone communication in the genus *Yponomeuta* 159–169
MICHAEL L. MAY, DAVID L. PEARSON and TIMOTHY M. CASEY: Oxygen consumption of active and inactive adult tiger beetles 171–179
B. K. MITCHELL and M. G. McINTYRE: Description of electrophysiological data using a microcomputer 181–184
R. PREISS and E. KRAMER: Anemotactic orientation of gypsy moth males and its modification by the attractant pheromone (+)-disparlure during walking 185–198
SARAH J. ROCKEY and DAVID L. DENLINGER: Influence of maternal age on incidence of pupal diapause in the flesh fly, *Sacrophaga bullata* 199–203

GERD GÄDE and MARIANNE SCHEID: A comparative study on the isolation of adipokinetic and hypertrehalosaemic factors from insect corpora cardiaca 145–157
ANS HENDRIKSE: Intra- and interspecific sex-pheromone communication in the genus *Yponomeuta* 159–169
MICHAEL L. MAY, DAVID L. PEARSON and TIMOTHY M. CASEY: Oxygen consumption of active and inactive adult tiger beetles 171–179
B. K. MITCHELL and M. G. McINTYRE: Description of electrophysiological data using a microcomputer 181–184
R. PREISS and E. KRAMER: Anemotactic orientation of gypsy moth males and its modification by the attractant pheromone (+)-disparlure during walking 185–198
SARAH J. ROCKEY and DAVID L. DENLINGER: Influence of maternal age on incidence of pupal diapause in the flesh fly, *Sacrophaga bullata* 199–203

KARL J. SIEGERT and WILLIAM MORDUE: Elucidation of the primary structures of the cockroach hyperglycaemic hormones I and II using enzymatic techniques and gas-phase sequencing 205–211
DAVID W. STANLEY-SAMUELSON, JOHN J. PELOQUIN and WERNER LOHER: Egg-laying in response to prostaglandin injections in the Australian field cricket, *Teleogryllus commodus* 213–219
ANNEMARIE SURLYKKE: Moth hearing on the Faeroe Islands, an area without bats 221–225
PETER R. WHITE and BARBARA M. LUKE: Fine structure, function and distribution of antennal sensilla in the saw-toothed grain beetle, *Oryzaephilus surinamensis* 227–238

## VOLUME 11, NUMBER 3, SEPTEMBER 1986

M. V. BRIAN: The importance of daylength and queens for larval care by young workers of the ant *Myrmica rubra* L. 239–249
MARCEL DICKE: Volatile spider-mite pheromone and host-plant kairomone, involved in spaced-out gregariousness in the spider mite *Tetranychus urticae* 251–262
H. A. EDWA[illegible] and P. L. MILLER: Patterns of intermittent ventilation and responses to perfusing gas [illegible]xtures in quiescent *Blaberus cranifer* 263–272
A. GUERRERO, R. MURGO and X. MARTORELL: An improved electroantennogram apparatus with a new automatic sample injection system 273–277
M. A. HOWE and M. J. LEHANE: Post-feed buzzing in the tsetse, *Glossina morsitans morsitans*, is an endothermic mechanism 279–286
OLE NÆSBYE LARSEN, GEORG GLEFFE and JAN TENGO: Vibration and sound commu[illegible]tion in solitary bees and wasps 287–296
ELIZAB[illegible] D. OWENS and RONALD J. PROKOPY: Relationship between reflectance spec[illegible] host plant surfaces and visual detection of host fruit by *Rhagoletis pomonella* flies 297–307
JÜRGEN RHEINLAENDER, MARTIN HARDT and DAVID ROBINSON: The directional sensitivity of a bush cricket ear: a behavioural and neurophysiological study of *Leptophyes punctatissima* 309–316
DAVID ROBINSON, JÜRGEN RHEINLAENDER and J. C. HARTLEY: Temporal parameters of male–female sound communication in *Leptophyes punctatissima* 317–323
MARK W. ROWLAND and STEVEN W. LINDSAY: The circadian flight activity of *Aedes aegypti* parasitized with the filarial nematode *Brugia pahangi* 325–334
P. C. SANTHA and V. S. K. NAIR: Age-dependent responses of last instar larvae of *Spodoptera mauritia* to precocene II 335–341
SEIJI TANAKA: Uptake and loss of water in diapause and non-diapause eggs of crickets 343–351
INGRID H. WILLIAMS and A. P. MARTIN: Evidence for a female sex pheromone in the brassica pod midge *Dasineura brassicae* 353–356
BOOK REVIEW; BOOK NOTICES 357–358

## VOLUME 11, NUMBER 4, DECEMBER 1986

U. BÄSSLER, T. HOFMANN and U. SCHUCH: Assisting components within a resistance reflex of the stick insect, *Cuniculina impigra* 359–366
ROBERT J. BARTELT, ANGELA M. SCHANER and LARRY L. JACKSON: Aggregation pheromones in five taxa of the *Drosophila virilis* species group 367–376
ELIZABETH A. BERNAYS: Evolutionary contrasts in insects: nutritional advantages of holometabolous development 377–382
DEREK COSENS and NEIL TOUSSAINT: The dynamic nature of the activities of the wood ant *Formica aquilonia* foraging to static food resources within a laboratory habitat 383–395
FRANCK COUILLAUD: Influence of sexual organs on corpora allata biosynthetic activity in *Locusta migratoria* 397–403
IAN D. DOBSON and PETER E. A. TEAL: Field studies of the temporal response patterns of male *Diabrotica virgifera virgifera* LeConte and *D.barberi* Smith and Lawrence to 8*R*-methyl-2*R*-decyl propanoate 405–410
C. H. GREEN: Effects of colours and synthetic odours on the attraction of *Glossina pallidipes* and *G.morsitans morsitans* to traps and screens 411–421
A. GUNN and A. G. GATEHOUSE: The effect of adult feeding on lipid and protein reserves in African armyworm, *Spodoptera exempta*, moths before and during reproduction 423–431
YING-SHIN PENG and JERRY M. MARSTON: Filtering mechanisms of the honey bee proventriculus 433–439

U. SHALOM and M. P. PENER: Endocrine manipulations and ontogenesis of male sexual behaviour in *Locusta*: studies on precocene-induced early adultiforms 441–452
SEIJI TANAKA: De-alation, flight muscle histolysis, and oocyte development in the striped ground cricket, *Allonemobius fasciatus* 453–458
S. B. VINSON and G. L. PIPER: Source and characterization of host recognition kairomones of *Tetrastichus hagenowii,* a parasitoid of cockroach eggs 459–468
M. L. WARNES and L. H. FINLAYSON: Electroantennogram responses of the stable fly, *Stomoxys calcitrans,* to carbon dioxide and other odours 469–473
DONNA E. WILLER and DAVID J. C. FLETCHER: Differences in inhibitory capability among queens of the ant *Solenopsis invicta* 475–482
